

# ALTI

WWW.ALTUAS.COM

ALTI is a world-leading unmanned aircraft developer and manufacturing company. Our speciality is in long endurance hybrid fixed wing aircraft and we offer the most advanced VTOL (vertical take-off and land) unmanned systems, with the highest performance and best pricing available in their class.

We are Africa's premier commercial drone manufacturer, based in South Africa, and have been developing, producing and exporting unmanned aircraft for more than 7 years with over 1000 various unmanned aircraft shipped.

The ALTI Transition is a class leading unmanned VTOL hybrid aircraft, developed as an ultra compact, efficient and affordable fixed wing system with the ability to take-off and land vertically, almost anywhere. With endurance of up to 12 hours and unmatched real world performance, the Transition is leading the next generation of advanced unmanned aircraft, taking our clients further than ever possible before.
