ADDNODE GROUP

## Transforming vision into Value

Intrinsys, now part of the Addnode PLM Business Division, has a mission to deliver outstanding products and services, offering exceptional and unique value to our customers.

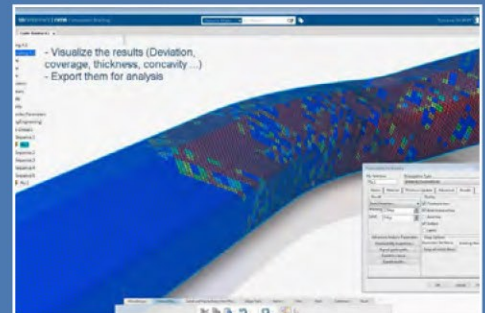

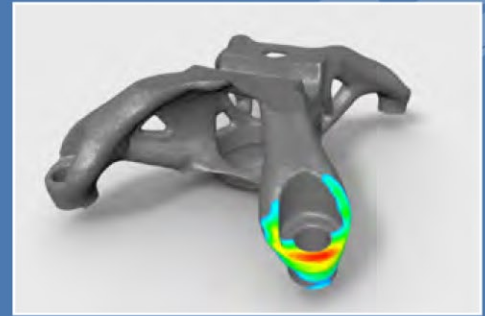

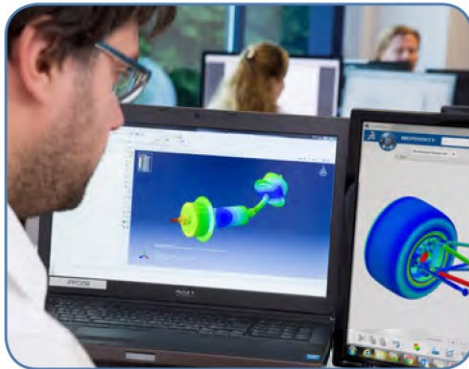

As Dassault Systèmes leading Gold partner, Intrinsys uniquely provide and support PLM products alongside a thriving engineering consultancy. With 30 years of experience, 220 ENOVIA experts, 250 CATIA, SIMULIA and DELMIA experts, and 14 offices around the world, Intrinsys is ready to help you get started with a unique PLM solution to support your business goals.

Our expert industry knowledge means Intrinsys are the partner of choice to help your business unlock the potential of current and future trends, such as Industry 4.0 and the Internet of Things (IoT), and get you started on your journey to Digital Transformation.

We are here to help you take advantage of the benefits of PLM; including increased productivity & product innovation, improved asset utilisation, improved collaboration and faster time-to-market.

Training & support is provided by our experienced engineers who use the same products as part of their daily toolset. In this way, Intrinsys pride ourselves on being able to relate to clients' needs, solve any problems they face and understand any issues or opportunities from both a technical and commercial perspective.
