**PERFORMANCE FOAMS**

Sondor Industries has over 70 years' experience in the polyethylene & EVA foam industry. As the leading manufacturer, converter and exporter of closed cell polyethylene and EVA foam in Africa, We maintain ascendancy through centralised bulk manufacturing and decentralised converting operations, we stock a comprehensive range of products that showcase value for money and the newest technical solutions for sealing, protection, thermal and acoustic insulation, buoyancy and packaging applications.

We are committed to product and service excellence and showcase an image that boasts world-class quality, agility and a unique entrepreneurial flair. We are passionate about improving our products and processes through investing in technology and staff development and abiding by strict regulations when it comes to safe, environmentally responsible and productive working conditions.

We are proud to stand by our brand as all our products are CFC and HCFC free and are manufactured in compliance with international standards including ISO 9001 or TS 16949 as well as ISO 14001 and OHSAS 18001.
